Our international focus

For almost a century The Charities Aid Foundation has acted as a meeting point for companies, private philanthropists, fellow foundations, governments, charities and not-for-profit enterprises. Our independence, expertise and international reach enable hundreds of millions of pounds each year to move across sectors and borders.

The CAF group, made up of CAF UK, CAF America, and CAF Canada, has been operating internationally for over 25 years.

CAF's international focus is on facilitating effective giving across borders to carefully validated organisations and projects, with a particular focus on giving from the three countries where CAF Group operates: UK, USA and Canada.

We work with HNWIs, businesses and government across the world, supported by our international network of partners. Our partners are independent, locally led organisations working at the forefront of philanthropy and civil society. This network helps us facilitate cross-border giving of the highest regulatory compliance. Cause universal, our world-class services give maximum flexibility to our clients.

Powering world giving

We partner with a growing number of independent, philanthropic organisations to help expand cross-border giving and philanthropic activity around the world, and help tackle a range of issues affecting their regions. These trusted, locally-led organisations work at the forefront of philanthropy and help us facilitate flexible cross-border giving at the highest standards of regulatory compliance. They are able to offer on-the-ground expertise and local knowledge to ensure all donations are delivered with the greatest impact.

CAF’s partnerships and activities are based on delivering three core objectives:

**LEVERAGING REACH**
We aim to increase our international reach, continue to manage risk effectively and operate to the highest regulatory standards.

**INCREASING IMPACT**
We ensure donations have greater impact by drawing on our local expertise and global best practice.

**AMPLIFYING OUR VOICE**
We amplify the voices of our high-profile local philanthropy experts and the work our partners do locally and globally.

Our growing network is underpinned by collaboration. We offer access to an array of services and expertise from across the CAF group and international charities, and we collaborate through joint thought leadership, research, business development and advocacy activities.

Connecting people and causes so that
civil society may thrive

We have extensive international reach, expertise and direct connections to overseas non-profit organisations. Our aim is to encourage philanthropic giving to enable overseas non-profit organisations to deliver positive change in their local communities.

Looking ahead, we plan to strengthen and grow the services we offer to philanthropists and businesses who donate across borders. We are seeking to connect with new partners to accelerate progress in society towards a fair and sustainable future for all.

“CAF is fortunate to sit at the meeting point of donors and our many charity partners and we are proud of the expertise that we are able to bring to the table to ensure that businesses, private philanthropists and fellow foundations can safely and effectively support the causes close to their hearts, wherever they may be. CAF works to bring together diverse expertise in cross-border giving to support communities around the world through the power of philanthropic giving.”
