

Investment Profile 4 - CAF Conservative Capital Growth

Monthly Update

Data as at 31 July 2019

Key Facts

Objective

Aims to provide a higher investment return than could be achieved by a high-quality bond investment over the medium to long term.

The managers use a balanced portfolio approach, harnessing diversified returns from bonds, equities and alternative assets. The managers will adjust the asset allocation from time to time depending upon market circumstances, but not to an extent that would significantly alter the long-term risk-return profile of the investment strategy. The portfolio combines active fund managers, who aim to outperform their benchmarks (after costs), and passive investments, which offer cost-effective market exposure. The aim is to achieve better returns than the underlying markets while controlling the overall cost of the investment.

Suggested Time Horizon* 5 Years +

Fund Launch Date 14 Mar 2011

Currency GBP

Suitability

This portfolio may be suitable for investors with a time horizon of five years or more who wish to grow their investment beyond the impact of inflation. Investors therefore accept some capital value fluctuations in the short and medium term in order to achieve an acceptable rate of return over the longer term.

Risk Scale

*There is no required minimum holding period.

Strategic Asset Allocation (%)

Source: Octopus Investments

CAF Risk/Return Frontier

Source: Lipper and Octopus Investments 14 March 2011 to 31 July 2019. The chart shows the annualised returns of the CAF Conservative Capital Growth Fund profile plotted against the risk and return profiles of the main asset classes used by the CAF Managed Portfolio Service. Volatility expressed investment risk in a well-diversified portfolio as the variation of annual returns above and below the long-term annual average for any single 12-month period. Please note that the target risk band is based on a three-year holding period.

Performance Since Launch

Cumulative Performance (%)	1m	3m	6m	1yr	SL	SL (annualised)
