**Key Facts**

**Objective**
Aims to generate capital growth over the medium to long term, without exposing investors to the risks and volatility associated with a wholly equity-focused portfolio. The managers invest in a combination of UK and overseas equity funds, as well as alternative strategy investments. The managers will adjust the asset allocation from time to time depending upon market circumstances, but not to an extent that would significantly alter the long-term risk-return profile of the investment strategy. The portfolio combines active fund managers, who aim to outperform their benchmarks (after costs), and passive investments, which offer cost-effective market exposure. The aim is to achieve better returns than the underlying markets while controlling the overall cost of the investment.

**Suggested Time Horizon** 7 Years +

**Fund Launch Date** 14 Mar 2011

**Currency** GBP

**Suitability**
This portfolio may be suitable for clients with a longer investment time horizon, which allows them to weather the medium-term ups and downs of equity markets in order to benefit from the higher equity risk-return premium.

**Risk Scale**
1 2 3 4 5 6 7 8 9 10

*There is no required minimum holding period.*

---

**Strategic Asset Allocation (%)**

- International Equity: 37.5
- Alternative Strategies: 27.5
- Fixed Income: 17.5
- UK Equity: 17.5

**CAF Risk/Return Frontier**

Since Launch (%)

Source: Lipper and Octopus Investments 14 March 2011 to 31 March 2020. The chart shows the annualised returns of the CAF Progressive Capital Growth Fund profile plotted against the risk and return profiles of the main asset classes used by the CAF Managed Portfolio Service. Volatility expressed investment risk in a well-diversified portfolio as the variation of annual returns above and below the long-term annual average for any single 12-month period. Please note that the target risk band is based on a three-year holding period.
